Your current Personal year is 3 . Which is Scheduled from 5th February 2010 to 4th February 2011

Personal Year 3 says social expansion & creative successes. This is a social, happy year, and it generally tends to exude bright and cheerful vibrations. This is a year when you will want to check up on old friends and broaden your social circle to include some new ones. Romance and love affairs may bloom. You are inclined to live life to its fullest now, even if you have to pay the consequences later on. You are likely to be more sociable and the bridle of responsibility will seem to be loosened a bit. You are inclined to scatter your energies and undertake too many things at the same time. You can safely take some time off to enjoy yourself, but resist the temptation to completely give in to having a good time; keep your goals in mind. This personal year is a good time to expand personal creative talents, particularly those related to the arts and verbal skills. Recognition in this regard is likely this year.

A generally frivolous attitude in that environment can cause rash decisions and impractical, unfinished schemes. This is not likely to be a very good year for your finances, and it is fortunate that the next year is
